

6 POLICY SUMMARY

6.1 Introduction

The approach to development of the Plan is set out in Section 3. Locally-specific issues and objectives driving this development are presented in Appendix E. Section 4 then provides a detailed discussion of each area and an explanation of why the recommended policies are preferred. This section also includes policy statements collated by management area. An overview of the preferred SMP-wide plan and its implications is presented in Section 5. This section (Section 6) contains a Summary of the policies by area. This summary should be read in conjunction with the detailed analysis in Section 4. Figure 6.1 provides an overview location of units.
